

COLLEGE PREP & CONNECT CLINIC

WORKSHOPS DESIGNED TO BRING THE COMMUNITY TOGETHER IN THE NAME OF EDUCATION

#WEREPCOLLEGEPREP

In May we featured college prep workshops highlighting the **Wheels of Dreams Youth Foundation** & scholarship opportunities

Our Initiative
To Educate...

a community through our **College Prep & Connect Clinic** workshops in May that featured the amazing **BMOA (Black McDonald's Operator's Association) Wheels of Dreams Program** and their scholarship opportunities to high school student employees and parents like LaChandra who is requesting the program at her school **#WEREPLACHANDRA**

Our Goal
To Advocate...

for 100% of participating store employees who were considering college and to walk them through the scholarship options, application process and programs through the testimonies of Wheels of Dreams program graduate, Arsema **#WEREPARSEMA**

Our Motivation
To Empower...

future young leaders who work hard by sharing the benefits of **Wheels of Dreams** and providing access to additional financial resources like **Archways** and experts outside of school like manager and scholarship recipient, Kiara and Archways representative, Pointsettia Hodge **#WEREPKIARA**

Our Outcome Summary:

- Provided 2 workshop sessions
- Provided 1 follow up visit for the employees who were unable to attend workshops
- Reached 20 people
- Prior to our outreach, 100% were unfamiliar with Wheels of Dreams
- Prior to our outreach 100% were unfamiliar with the Wheels of Dreams scholarships
- Prior to our outreach 80% were unfamiliar with Archways
- To date, 4 attendees have requested the Wheels of Dreams program at their schools
- 6 employees have requested to apply for Archways
- 10 attendees learned how to apply and prepare for scholarship process
- 6 plan to apply for our scholarships next year
- 5 requested applications to apply for scholarships this year

"Wheels of Dreams Youth Foundation program went the extra mile to ensure those student employees who could not take advantage of their program at their schools were able to get the information at their jobs in order to gain access to the opportunities that they needed." -Dr. Danny

Special thanks to:
